

# METRONIDAZOLE BENZOATE

*1-(2-benzoyloxyethyl)-5-nitro-2-methyl-imidazole*

|                              |   |
|------------------------------|---|
| Trade name                   | Elyzol <sup>®</sup>   |
| Empirical formula:           | C <sub>13</sub> H <sub>13</sub> N <sub>3</sub> O <sub>4</sub> |
| CAS Number:                  | [13182-89-3]  |
| Specifications:              | USP, Ph. Eur.   |
| Therapeutic category:        | Antiprotozoal   |
| DMF:                         | France 95-072<br>R1-CEP 1996-067 REV. 02                      |
| Special qualities available: | Micronised  |
| Derivatives:                 |   |
| Availability:                | Regular production  |
